Full Papers Guide and Template

Please read carefully.
The attached guide and template give you instructions to prepare your Paper. Please follow strictly these instructions and provide us with the necessary information we need to consider your Paper. Study Committee and Preferential Subject addressed are essential to direct your full Paper to the right person for reviewing.
Your email address is highly needed to keep you informed about the selection results.

CIGRE offers authors a free of charge publication. Please ensure fast processing and publication by carefully adapting the layout of Papers according to the template provided.

Papers should be in English, grammatically correct and carefully proofread. They must be previously unpublished content and not considered for publication elsewhere during the whole Papers process.

Papers are peer-reviewed by experts. Notification for acceptance or non-acceptance will be communicated to authors on 6th May 2024.

Thank you for your attention!
INSTRUCTIONS FOR THE PRESENTATION
OF PAPERS AT CIGRE SESSIONS

This document gives general instructions to be followed for the preparation of Papers at CIGRE Sessions. We kindly ask you to read them carefully and comply with them so that publication of your Paper may be smoothly processed.

Further to these instructions, CIGRE will provide for each Session 3 sample pages specific to the coming Session. The 3 pages are: Title page with the Session header included, page 1 where the text starts, and last page where the Bibliography appears. Authors are required to use these sample pages. The sample pages should be circulated to authors by National Committees and will be also available for downloading on the website with the Session announcement.

IMPORTANT POINTS:

- Papers will not be proof-read by the Central Office. No changes or additions will be accepted.
- The deadline of 6th February 2024, for receipt of full papers by the Central Office must be strictly observed.
- Final notification will be delivered to authors on 6th May 2024 after a peer review of Papers by a pool of experts constituted by Study Committees.
- The electronic file is essential for publication. Files uploaded – PDF format only - must not exceed 1 Mbyte.

1. GENERAL

1.1 Nature of Papers

Papers presented at CIGRE Sessions must be unpublished material of strictly scientific or technical character, and not carry any advertising connotation. Consequently, names of manufacturers must not appear in the body of the text, nor in tables or figures. Names of Companies or Universities should only appear at the top of the first page (title page), under the authors' names. (See paragraph 3.2)
1.2 Languages used

Session Papers are issued in either French or English. There is no translation into the other language. Authors are however advised to provide an English version for any paper in French as most delegates are familiar with English only. In this case both versions will be published.

2. STRUCTURE OF PAPERS

For homogeneity, the Paper structure with heading, “SUMMARY”, “KEYWORDS” and “BIBLIOGRAPHY” must be duly kept. The titles “SUMMARY”, “KEYWORDS” and “BIBLIOGRAPHY” also must be kept as they stand.

2.1 Heading

The heading comprises the Session header, the paper reference number, the title of the paper and the authors’ identification.

2.2 Summary

The paper starts with an extensive summary, of about 500 words, intended to provide readers with a thorough overview of the paper. Summary and title give the first impression of a paper; hence great care should be taken in their formulation.

2.3 Keywords

A list of keywords follows the summary, as specified in Appendix 1. These keywords are intended for recording by documentation departments. They are part of the title page.

2.4 Main text.

To come after the keywords, and start at top of next page.

2.5 Bibliography

Included at the end of the paper, it gives the details of the references mentioned in the paper.

3. PRESENTATION OF PAPERS

Papers are to be posted on the Cigre website as well as on the Session mobile application.

3.1 Typing: General

Texts should be typed in single spacing, and normal layout should be used (no 2-column layout). - See sample: Appendix 3. There is no need for an extra left-hand margin, unnecessary waste of space.
The fonts “Arial” ‘Times' or 'Helvetica' are recommended, size **11 or 12 only**. Narrower typing will be illegible. **Do not use fancy characters.**

In order to simplify and speed up the editing of the Papers, CIGRE kindly requests the authors to effect the lay-out of their Papers on a PC (with figures and tables inserted) on an ISO 21x29,7cm / DIN A4-format (final size). Please do not use other formats.

### 3.2 Title page, Summary and keywords

The authors are requested to use the provided sample page of the Title page. Its layout must be very carefully observed. (spacing, fonts…).

The heading comprises three parts:
- the header, CIGRE details and Session year - *provided by CIGRE on the sample page*
- the reference number of the paper, which has been attributed to the paper – *to be inserted by the author* – and provided by National Committees.
- the title of the Paper. For the authors: first names start with a capital letter and continue in lower case, last names are written in CAPITAL letters only, *company, country, and email address for each author*. The main author can be indicated by an asterisk immediately following his name.

Paper title should be typed with *Helvetica or Arial bold characters, size 12*. The authors’ names should be typed with *Times Roman, bold characters, size 12*. They should be centred under the title.

“**SUMMARY**” should be written ideally when possible 4.8” (12cm) from the top of the page, under the “heading”.

### 3.3 Other pages

Pages other than title page must be typed starting 2,5 cm (1") from the top of the page. Pages other than the title page must be numbered at the bottom page (right hand side).

### 3.4 Bibliography

References should be mentioned following the order in which they appear in the text. Each reference should be set as follows:
- Reference number (in the text) in square brackets [ ]
- First name(s) or initial(s), name(s) of the author(s)
- Title of the article and in brackets the name of the publication, reference number, date, page (or first and last page numbers),
  or
- Title of the Paper, and in brackets the name of the relevant Conference, date, reference number and page (or first and last page numbers)
  or
- Title of the book, editor, year of publication and page (or first and last page numbers).
- Authors should not refer to internal company documents and more generally to unpublished
3.5 Figures and Images

Electronic versions of the figures should be inserted directly in the text. They should be carefully prepared.  
Figure numbers and captions should appear under each figure. For better understanding, avoid cramming information on figures and only use graphic symbols recommended by the International Electrotechnical Commission (IEC) Recommended Graphics Symbols – database No 60617: ‘Graphical Symbols for Diagrams’.

All comments relevant to the figures should appear in the caption. Typing characters have to be carefully selected to ensure legibility. Images should be checked as well to ensure a good resolution while maintaining a reasonable size of the full Paper PDF file.

3.6 Tables

Typing characters should be chosen so as to be clearly legible. Tables should be numbered using roman figures; number and title should appear just above the table.

3.7 Conformity requirements

All Papers must be prepared in keeping with the present instructions.

3.8 Length of Papers

The recommended length for Papers is 10 -12 pages (title and figures included).

4. ADVICE FOR LAY-OUT OF PAPERS

- For greater clarity, texts should be divided under headings and subheadings. Decimals should be used as reference numbers to identify chapters, sections, paragraphs.

- Authors are kindly requested to use the decimal metric system referred to as International System SI (See IEC Publication No 60027 “Technical International standards for letter symbols in 6 parts). Some indications concerning symbols are given in Appendix 2.

- Authors should avoid giving mathematical developments. If these are necessary, the longer part should be given in an appendix.

- For formulae, authors should use mathematical software. Equations should be centred on the page and numbered. The number is to appear in brackets on the right hand side of the formula.

5. COPYRIGHT

The Papers are copyrighted to protect the interests of CIGRE as well as their authors’. Authors who submit a paper for publication agree to assign to CIGRE the copyright in the paper, in accordance with the “copyright provisions” exposed in Appendix 4.
6. SENDING OF PAPERS TO THE CENTRAL OFFICE

Papers will be uploaded on a dedicated platform by National Committees (PDF format only).

Each National Committee has an individual login and password, which will not be circulated to authors.

Authors with no Cigre National Committee should send the electronic file of their paper (PDF format preferably) directly to the Central Office.

In this case, when sending in the electronic file, the attachment must be clearly identified with the title of the Paper and the author’s name.

The size of each file should not exceed 1 megabyte. Figures, tables and diagrams should be of reasonable size to comply with this requirement.

7. AVAILABILITY OF PAPERS

Session Papers can be downloaded through the Cigre registrations portal before the Session by duly registered delegates only. They will be also available on site on the mobile application with a login and password. After the Session they will be posted on the library online e-CIGRE.
APPENDIX 1

CHOICE OF THE KEYWORDS

A.1. Number of keywords

Authors have full latitude as regards choice and number of keywords. As an indication, 3 to 10 words or groups of words are usually sufficient to characterise a technical document.

A.2. Choice of keywords

1. Each keyword should correspond to a single and precise notion. Certain compound words or groups of words designating one sole notion will constitute keywords.

Examples: High Voltage - Reactive Power - Power Factor

On the other hand, many compound words which are in fact an association of two independent notions will have to appear as two separate keywords.

Examples:

Interconnection systems -> Interconnection - System
Anchor tower -> Anchor - Tower

2. Words, which do not convey precise information, such as: product, matter, agent, effect, process, device, phenomenon, etc...must not be used as keywords.

Examples: Breaking device -> Breaking
Corona effect -> Corona

However, with 'Switching Overvoltage' the keywords will be :'Switching' and 'Overvoltage'.

3. For the purpose of indexation, wherever possible, the noun in the singular should be used, rather than the adjective.

Examples: Guyed tower -> Tower - Guy
Inhibited oil -> Oil - Inhibitor

4. A well-defined chemical substance is a single keyword.

Example: Sulphur Hexafluoride

However, chemical substance types should be coded with the help of independent keywords.

Example: Alcaline Chloride -> Chloride - Alcaline

A.3. Final comments

Keywords should always be written in singular, start with a capital letter, and a dash between each word.

Authors are advised to use as keywords the terms which appear in the IEC's International Electrotechnical Vocabulary (IEC Publication No 50).
APPENDIX 2

RECOMMENDATIONS ON THE SYMBOLS WHICH SHOULD BE USED TO REPRESENT UNITS

The SI symbols for units are typed with vertical characters, whatever the kind of characters used in the text. They are written in small letters, except when the name of the unit comes from a name, in which case the first letter of the symbol is a capital one.

Examples: metre: m volt: V hertz: Hz

The products of two units are expressed by combining their symbols with a full stop.

Example: Newton metre: N.m

The symbols for single units can however be joined together without a full stop when there is no risk of confusion:

Examples: Watt-hour: Wh kilovolt: kV
Volt ampere: VA Megavolt: Mvar
AC or a.c. DC or d.c.

Write: HV or h.v. HV or h.v.

The quotient of two units is expressed by putting a stroke between their symbols or by using negative exponents, preferably when there are several symbols in the denominator.

Examples: metre per second: m/s or m.s⁻¹
metre per second squared: m/s² or m.s⁻²

The multiples and sub-multiples of SI units are linked to the basic units by standardised symbols

Examples: T for Tera (10¹²) k for kilo (10³) n for nano (10⁻⁹)

The prefix should not be separated from the name of the unit either by a space or any typographical sign.

Thus, one should write:

GW: 10⁹ watts mA: 10⁻³ amperes
MHz: 10⁶ hertz μF: 10⁻⁶ farads
kV: 10³ volts ns: 10⁻⁹ seconds
cm: 10⁻² metres

Symbols are written without a full stop (except when the full stop is a punctuation mark at the end of a sentence which finishes with a symbol) and must not bear the indication that they are plural because 's' stands for 'second'.

Examples: 100 kilometres: 100 km
1 metre per second: 1 m/s
1 lumen second: 1 lm.s

Symbols with decimal figures should appear at the right of the whole number, which indicates the numerical value:

One should write: 24,5 m - 25,4°C
One should not write: 24 m,5 - 25°,4C nor °C25,4

Symbols for units should not be used after a number written out in full.

One should write:      Five kilometres
                        5 kilometres
                        5 km

One should not write:  five km.

Generally speaking, it is not advisable to use a symbol for a unit in a text without it being associated with a numerical value written in figures.

One should write:     'Length is expressed in metres'
One should not write:  'Length is expressed in m'
Here your Paper ID – 5 numbers
Full Name of Study Committee – example A2 Power transformers and reactors
Preferential Subject - example PS1 Design of resilient transformers
*Information available from your National Committee and in the emails sent to your att.*
delete before publication.

Title of your Paper
Helvetica or Arial Bold size 12

For each Author: full name (Times Roman, bold, size 12)
Company/University
Country
Email address

- First name start with a capital letter and continue in lower case, last name are written in CAPITAL letters only. You may use numbers if some authors are from the same companies. Main author must be indicated by an asterisk immediately following the name.
  – delete before publication.

SUMMARY

Start typing here with the summary (about 500 words; Times or Helvetica, size 11 or 12 only). Do not remove or shift the title “SUMMARY”.

KEYWORDS

3 to 10 words or phrases (Times or Helvetica, size 11 or 12 only). As for “SUMMARY”, please keep the title “KEYWORDS”.
All pages after title page must start from this line, i.e. 1” (2, 5 cm) margin from the top (Times or Helvetica, size 11 or 12). Pages will be automatically numbered.
BIBLIOGRAPHY

Type here the bibliography at the end of your text, according to this presentation (see sample references below). Font to be used is always Times or Helvetica 11 or 12.

For instance:

[1] Working Group SC 22-12 CIGRE. “The thermal behaviour of overhead conductors Section 1 and 2 Mathematical model for evaluation of conductor temperature in the steady state and the application thereof” (Electra number 144 October 1992 pages 107-125)

APPENDIX 4

CIGRE COPYRIGHT PROVISIONS

It is the policy of CIGRE to own the copyright to the technical contributions it publishes on behalf of the interests of CIGRE and their authors, and to facilitate the appropriate reuse of this material by others.

CIGRE distributes its technical publications throughout the world. It also abstracts and may translate its publications and articles contained therein, for inclusion in various compendiums and similar publications, etc. When an article is submitted for publication to CIGRE, CIGRE understands that its acceptance of the article implies that CIGRE has the rights to do all of the things it normally does with such an article.

The following CIGRE policy applies to all material submitted to CIGRE; submitting a paper for publication by CIGRE implies that the author agrees with the provisions set forth hereafter.

1. CIGRE must of necessity assume that material presented at its meetings (Sessions or Symposia) or submitted to its publications (Technical Brochures, Electra) is properly available for general dissemination to the audiences these activities are organized to serve. It is the responsibility of the authors, not CIGRE, whether disclosure of their material requires the prior consent of other parties, and, if so, obtain it.

2. When the author(s) come(s) from a country where different rules are applied for the copyright, then he/she/they should inform CIGRE of the provisions which apply in his/their own country.

3. If the copyright in the work is owned by the author(s), the author(s) assert(s) that he/she/they has/have moral right to be identified as the author(s) and agree(s) to assign the copyright in the paper to CIGRE, under the provisions hereafter.

4. If the copyright in the work is owned by the organisation which has commissioned the work on which the paper is based or which employs the author(s), the author(s) assert(s) that the organization agrees to assign the copyright in the paper to CIGRE, under the provisions hereafter.

5. The organisation in assigning the copyright in the paper gives no warranty expressed or implied that the paper is free from defamatory matter, nor that the paper does not infringe the rights of any third party.

6. The organisation warrants that:
   a) it has advised the author(s) of his/her/their responsibilities to avoid defamation or infringement of third party rights, and
   b) it will notify CIGRE of any adverse claim that comes to its knowledge prior to publication.

7. In assigning the copyright nothing shall in anyway affect any agreement which the organisation may have with any of its employees or others performing work for or on its behalf.

8. The author(s) and/or the organisations for whom the work was performed shall be entitle
a) to retain all proprietary rights other than the copyright, such as patent rights;
b) to reproduce figures and extracts from the papers with proper acknowledgement of CIGRE;
c) to reuse all or portions of the paper in other works with proper acknowledgement of CIGRE;
d) without payment to make and have copies made of the published paper for his/her/their/its own purpose's but not for sale, provided that no reference is made to CIGRE in any manner which implies endorsement by CIGRE of any product or services the organisation manufactures or in which it deals.

9. Reprinting and abstracting will be permitted only with authorization of CIGRE and with proper acknowledgement of the owner. Ownership in a CIGRE publication, whether in paper form or on electronic support only infers right of use for personal purposes. Are prohibited, except if explicitly agreed by CIGRE, total or partial reproduction of the publication for use other than personal and transfer to a third party; hence circulation on any intranet or other company network is forbidden.

10. If CIGRE declines to publish the paper, the copyright in the paper will remain with the original copyright owner(s). If the paper is accepted for publication but is not published within a reasonable time after acceptance, the copyright owner(s) will have the right to require CIGRE to reassign the copyright in the paper to the original owner(s).
